We started these new promotions :

- Free class upgrade
- One-on-one class free upgrade
- Dormitory room free upgrade
- Free shuttle service

T. Eira

Halloween party

Our students joined our Halloween party. We hope that they had fun and good opportunities to make conversations with their friends and our teachers.

Teacher introduction

We'd like to introduce one of our great teachers, she is T. Eira. Here's her interview :

Question : Would you introduce yourself briefly?

Answer : My students call me Eira, 28 years old and I majored in English. I teach General and Business English and also some exam courses.

Question : What is your strong point in teaching English?

Answer : Everything I learned from my university and my previous job has helped me improve both my spoken and written skills in English. My hobbies have also greatly affected my fluency and the vocabulary I use in class and daily conversations.

Question : What do you think is the most important thing to improve our English?

Answer : I always advise my students to do their best in and outside the class. Never say "I don't know" because they might know something I do not. Every student is unique and I believe that everyone is smart. One must be well-motivated in learning a language. Think why you want to learn and improve your skills and focus on your goals. Read. Read a lot. Use the internet to watch English movies or news. These are only some of the tips I give my students.
